- Adjust the Safe Volume[®] to your dog's comfort level, made not to surpass the canine calm range.
- With the collar on your dog, position the Ultra Calmer between the ears, at the back of the neck.
- Allow your dog to walk around with the Ultra Calmer playing.
- Within minutes, shaking, pacing and panting are diminished and your dog arrives to a calmer state.

- Line up the magnetic end of the charging cord to the charging strip on the back of the Ultra Calmer.
- Connect the USB end of the cord to an active computer, mobile device or USB wall adapter.
